

How can I write the Spanish accents on my computer?

Many students have asked how to create Spanish symbols and accented letters on their computers. If you are using Windows XP and do not want to re-configure your keyboard, this is one method:

1. Press and hold down the ALT key while you type the following four number code on the side number pad.
2. Release the ALT key and the Spanish symbol or letter appears. For example, press and hold the ALT key while you type 0225, release the ALT and you have á.

Continue the same process for the following Spanish accented letters.

Key + # = Symbol

Alt	0225	á	0193	Á
Alt	0233	é	0201	É
Alt	0237	í	0205	Í
Alt	0243	ó	0211	Ó
Alt	0250	ú	0218	Ú
Alt	0161	ï		
Alt	0191	¿		
Alt	0241	ñ	0209	Ñ
Alt	0252	ü	0220	Ü
